BOOSTINITY

Multi-Skin Correcting Booster Series

The skin is not only the largest organ of our body, but also the most important as it forms the first line of defence against harmful aggressors. Consistent use of high quality products will ensure the longevity of skin health and vibrancy of appearance. It's not a routine, but more of a meditative experience where you are aiming to protect, nourish and equip your skin with essential actives that will enhance the well-being of your skin. The basic products that are needed to achieve optimal skin health are cleansers, toners, serums, sun protectors and day and night creams. However, for specific problems of the skin, **products developed with a high percentage of active ingredients** that can offer more precise targeted actions might be required to solve the issues.

BOOSTINITY line is formulated with naturally-derived high powered ingredients to tackle the most common skin problems, to help the skin cells function in a balanced fashion and infuse ingredients that will manage both stress-induced skin damage and battle enviromental and natural skin aging.

Boostinity Antistress

The accelerated pace of life, stress, lack of sleep, poor nutrition, pollution and tobacco smoke result in flaccid and dry skins with yellowish and grayish tones, dark circles and marked eye contours and even small spots on the skin due to the oxidation of the cells.

MAIN INGREDIENTS: Glycoproteins, Hyaluronic Acid, Retinyl Palmitate, Tocopherol Acetate, Urea.

Boostinity Peeling

The skin is constantly attacked by several visible and invisible aggressors (stress, fatigue, illness, age, pollution, hectic lifestyle, poor diet.) The skin barrier is primarly responsible for fighting off these elements.

But due to constant attacks, it may start to function poorly and skin cycles will be slowed down leading to dry painful skin. Peeling the superfcial layers of the skin will allow it to function as before as skin cycles are restored and barrier functions are stablilized.

MAIN INGREDIENTS: Glycolic Acid.

Boostinity Energy

Any type of illness, whether a short bout or a punctual physical effort, such as a long trip, compromises the skin causing dehydration, dryness and dark circles.

We have developed products with naturally-derived safe ingredients that will help your skin by working with it instead of against it.

MAIN INGREDIENTS: Linoleic Acid, Avena Sativa (Kernel) Extract, Glycoproteins, Phytoplacenta Extract.

Boostinity Oxygen

The inexorable passage of time leads to sagging skin folds, poor luminosity, flaccidity, wrinkles, uneven skin tones, increased skin dehydration and diminished levels of natural antioxidants that are important in scavenging harmful free radicals.

MAIN INGREDIENTS: Hydrolized Pea, Glycoproteins, Phytoplacenta Extract, Retinyl Palmitate.

NATURAL ORIGIN: Product formulated with ingredients of natural origin. Vegan. Please find packaging options at the end of the catalogue. All product formulas can be adapted to the requirement of every customer
