CEO'S WELCOME

Quality control is
our commitment;
innovation is our
vocation.

At OEM SPAIN we adapt ourselves to the customer's needs. Size does not matter but quality does, here at OEM Spain. Our client base is diverse and our capabilities are extremely adaptable. We cater to indie start-ups, established brands and cosmetic giants. Our primary goal is to be able to consistently provide european quality world-class formulations at competitive prices, in-keeping with current trends and using cutting edge biochemical technology. Spain has become one the world leaders in cosmetic manufacturing and is considered a pioneer in cosmetic science and innovation.

We are dream builders. This means that our focus is **YOUR BRAND**. We strive to stay close to your **Brand Philosophy** without compromising on quality and without placing unrealistic parameters like high MOQ'S on our existing inventory.

OEM options include:

- In-Stock dermatologically tested products from our massive inventory with no MOQ's -this is known as a *Turn-Key* set up and can commence immediately.
- We can also adapt our in-stock formulations and tweak them to meet your requirements. This route will carry small MOQ limits as it will be considered a new R&D, however this option offers faster turnaround times as we are only tweaking existing formulations.
- Custom developed formulations according to your specifications which will be considered a new R&D and will carry an MOQ limit.

- Options for bulk shipments on all our awarding-winning products in bulk containers supplied by the client or supplied by us.

We pride ourselves on our incredible diversity, covering all fields of cosmetics from **immediate effect products** to treatment products, **ampoules program**, **alginate peel-off masks (Alginasine)** and specific lines for dermatologists based on chemical peels along with products for **aesthetic equipment**.

Furthermore, we feature the world's **widest selection of visual products (www.fx-cosmetics.com)** that are truly a unique sensorial experience for the fashion conscious cosmetic user.

Our entire production chain, which we offer in an integral or individualized way, is characterized by the commitment to the ISO 22716:2007 standard of good manufacturing practices (**GMP**) through our **exclusive SAFE 22716 protocol**.

WELCOME TO OUR CATALOGUE!

Please visit **www.oemspain.com** to watch videos from our facilities and latest developments.

Please remember, we are world class manufacturers, so if you are unable to locate a product of your choice from our avantgarde inventory then do not hesitate to contact us about your **DREAM Project** and we will be happy to adapt and follow through with dedicated commitment.

MAURICIO SANCHIS C.E.O./General Manager

WE ARE EXPERIENCE

Created in 2012 as a manufacturer of cosmetic products for third parties by the marriage formed by **Mauricio Sanchis**, third generation of a dynasty dedicated to the manufacture of Spanish cosmetic products, and his wife **Sonsoles Albert**, a pharmacist specialized in cosmetic formulation, OEM SPAIN is formed by a multidisciplinary team of Spanish technicians with a vast experience in the fields of Research & Development & Innovation (R&D&I) and manufacturing of cosmetic products, dermatological studies, quality control, logistics and exports, and development of industrial projects.

AWARDS

OEM SPAIN has won the CEEI IVACE awards for the Best Business Project 2014 and Best Business Development in 2015 given by the **European Center for Innovative Enterprises (CEEI)** and the Valencian Institute of Business Competitiveness (IVACE). In 2017 awarded with the Golden Medal by **AEDEPI** (Spanish Association of Image Professionals).

GLOBAL PRESENCE

Due to the flexibility established in the company, the products cover all segments of cosmetics from beauty salons, dermatological clinics, spas, gyms or online sales.

Customers from 50 countries use products manufactured by OEM SPAIN, including China (photo on the upper left) where Mauricio Sanchis is welcomed by more than 1000 aestheticians and professional distributors.

VISIT FROM THE MINISTER

On January, 21st, 2016, Valencian Minister of Economy visited OEM SPAIN and expressed "my deepest congratulations to the company for its commitment to quality". (Photo on the left).

WE ARE QUALITY CONTROL

GMP SAFE 22716

Being in the forefront of Quality Control, environmental sustainability and innovation to go above and beyond the requirements of health authorities resulted in the creation of a unique and exclusive security protocol known as SAFE 22716.

SAFE22716 is the registered trademark of the exclusive security protocol developed at OEM SPAIN which, besides conforming exhaustively

with ISO 22716:2007 (Good Manufacturing Practice), adds important cosmeo-vigilance measures that will provide extra security to the products offered to our customers.

Quality control is our commitment; Innovation is our vocation.

WE ARE RULES

REGULATORY ASSESSMENT

WOULD YOU RATHER REMAIN IN THE PAST OR JOIN US AT XXI CENTURY?

The Regulation (EC) No 1223/2009 of the European Parliament establishing the legal framework in Europe for cosmetic products exists from 2009 and it was put into effect on 11 July 2013.

Did you know that every cosmetic laboratory attempting to sell cosmetic products in the European Union has to follow such regulation and be recognized by its local health authority as a responsible manufacturer?

WHAT MAKES US DIFFERENT?

a) Complying with the ISO 22716: 2007 standard is the guarantee that a laboratory follows the Good Manufacturing Practices required by Regulation 1223/2009. However, we wanted to go one step further to create a patented safety protocol, SAFE 22716, which adds cosmeo-surveillance measures that far exceed the European standard.

b) We have a regulatory advisory service so that our customers can not only ensure that the new products comply with European Regulation 1223/2009, but also verify in which situation their existing products are.

WHO MAY BE INTERESTED?

Cosmetic brands of any size needing high quality products with the security of complying with the current regulation.

Cosmetic laboratories that are not ready to implant it or have not been able to undertake the investment needed.

WE ARE FLEXIBILITY
