HYALUFORCE

Advanced Low Molecular Weight Hyaluronic Acid Complex

Hyaluronic acid is present in almost all tissues and biological fluids. It is a nearly ubiquitous compound, although its presence is larger in the extracellular matrix of soft connective tissue.

Almost half of hyaluronic acid in the human body is formed in the skin, being most of it located in the intercellular space. It can also be found in the cartilage or in the synovial fluid.

With aging, hyaluronic acid concentrations are decreasing progressively generating less elastic and less turgid skin, which justifies its use as an active ingredient in antiaging cosmetics.

Serum

Low-molecular-weight hyaluronic acid concentrate. Deeply hydrates and instantly plumps the skin.

MAIN INGREDIENTS:
Low-Molecular-Weight Hyaluronic Acid.

Eye Contour Serum With Vitamin C & HA

An advanced eye contour treatment enriched with Vitamin C and the Hyaluforce cosmetic complex, combining moisturising and revitalising properties to help smooth the appearance of fine lines, improve skin suppleness and enhance radiance. The delicate eye area looks smoother, fresher and more luminous.

MAIN INGREDIENTS: Ascorbyl Methylsilanol Pectinate, Hyaluronic Acid, Centella Asiatica Extract, Polygonum Cuspidatum Root Extract, Scutellaria Baicalensis Root Extract, Camellia Sinensis Leaf Extract, Glycyrrhiza Glabra (Licorice) Root Extract, Chamomilla Recutita (Matricaria) Flower Extract, Rosmarinus Officinalis (Rosemary) Leaf Extract.

PERFORMANCE

Improves skin permeability.

Improves firmness.

Maintain water in the skin.

Increasing skin elasticity.

Fills in wrinkles.

Promotes the synthesis of collagen type I.

Penetrates the deep layers of the skin.

Increases the proliferation of fibroblasts in the skin.

NATURAL ORIGIN: Product formulated with ingredients of natural origin. Vegan.
