

CAIRO BALM MAGIA

The All-in-One Skin Health Restorer

The all-in-one-cure that can potentially change your life. The balm that will change your life by giving your body a new lease on life by providing you with head to toe healing. Powered by some of the most extraordinarily healing molecules of Nature, our Balm Magia is nothing short of a living miracle. Bee pollen, Bee Propolis, Spanish Saffron, Turmeric, African Black Potato, Black Seed, Black Cohosh, CBD, and Olive oil have been used for thousands of years for treating acute and chronic skin ailments. How does modern medicine standardize these ancient practices? Clinical studies and research provide us with solid data that we can incorporate into modern day herbals. We use the knowledge of the ancients and feed it to modern science. Olive oil, honey, turmeric, saffron and bee propolis hold extremely high regenerative and rejuvenative actions. Numerous clinical studies demonstrate the power of these natural wonders. We could write a book on the benefits of this pot of gold, but instead we will list the benefits.

Balm Magia - your
life in a bottle,
experience
multi-level healing.

Facial

Supports the Skin Barrier
