

HYALUFORCE

Advanced Low Molecular Hyaluronic Acid Complex

Hyaluronic acid is present in almost all tissues and biological fluids. It is a nearly ubiquitous compound, although its presence is larger in the extracellular matrix of soft connective tissue.

Almost half of hyaluronic acid in the human body is formed in the skin, being most of it located in the intercellular space. It can also be found in the cartilage or in the synovial fluid.

With aging, hyaluronic acid concentrations are decreasing progressively generating less elastic and less turgid skin, which justifies its use as an active ingredient in antiaging cosmetics.

SERUM

MAIN INGREDIENTS:

Hyaluronic Acid low molecular weight.

NATURAL ORIGIN

Natural with BIO ingredients. Vegan.

AVAILABILITY

Stock Line, Choice line, Bulk Line, A la carte line.

EYE CONTOUR SERUM WITH VITAMIN C & HA

MAIN INGREDIENTS:

Ascorbyl Methylsilanol Pectinate, Hyaluronic Acid, Centella Asiatica Extract, Polygonum Cuspidatum Root Extract, Scutellaria Baicalensis Root Extract, Camellia Sinensis Leaf Extract, Glycyrrhiza Glabra (Licorice) Root Extract, Chamomilla Recutita (Matricaria) Flower Extract, Rosmarinus Officinalis (Rosemary) Leaf Extract.

NATURAL ORIGIN

Natural with BIO ingredients. Vegan.

AVAILABILITY

Stock Line, Choice line, Bulk Line, A la carte line.

PERFORMANCE

Improves skin permeability.

Improves firmness.

Maintain water in the skin.

Increasing skin elasticity.

Wrinkle filler.

Promotes the synthesis of collagen type I.

Penetrates into the deep layers of the skin.

Increases the proliferation of fibroblasts in the skin.

Please find packaging options at the end of the catalogue.

All product formulas can be adapted to the requirement of every customer.
