

MOSQUITO REPELLENT

Skin-Safe Insect Protection

Lemongrass, Geranium, Wild Mint, Tea Tree and Lemon Eucalyptus are some of the most effective plant-based repellents available on the market. With a pleasant scent and feel, it offers efficient protection against insects such as mosquitoes, biting flies and deer ticks, without the use of synthetic ingredients such as ACTIVE DEET.

BSR is a novel twist on your everyday insect repellent, where we use skin-healing botanicals that will ward off insects but keep you and your family safe without introducing harmful chemicals into your system.

Our plant extracts are safe for sensitive skin, as we use CO2 extraction with steam distillation to retrieve precious botanicals, maintaining freshness and efficacy, whilst diminishing irritancy that essential oils usually carry.

Apply small quantity. Spray product on hands and apply all over exposed skin avoiding any contact with eyes or mouth. Do not spray in enclosed areas. Wash hands after application. Re-apply after 6 hours if necessary. Do not apply more than twice per day. Keep away from children. Do not ingest. Do not spray in face. Use with caution on sensitive skin.

MAIN INGREDIENTS:

Cocos Nucifera (Coconut) Oil, Caprylic/Capric Triglyceride, Cymbopogon winterianus herb oil, Pelargonium graveolens oil, Mentha arvensis oil, Citrus limonum (Lemon) Peel Oil, Tocopheryl Acetate, Lavandula Officinalis Leaf Oil, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Citronellol, Geraniol, Farnesol, Citral, Limonene, Coumarin, Linalool.

We are one of the first labs in Europe to create a botanical based insect repellent using advanced extraction techniques.

FOGSTOP

Anti-Fog Spray for Glasses

The new reality and its obligations have brought a new companion to people that wear glasses: FOG.

And with it, the discomfort of having to remove the glasses hundreds of times in a day and, what is much worse, the danger of being able to cause accidents by limiting visibility.

FOGSTOP is a revolutionary formula that puts an end to this problem from the first application, reactivating the anti-fog film of the glasses and offering clear vision.

In addition, it can be used as a cleaning element for photo cameras, smartphone and tablet screens, diving masks, etc.

- Immediate Anti-Fog Effect.
- Clear vision (deep glass cleaning).
- 250 applications
- Various uses (cameras, screens, diving, etc.).
- Safe formula.
- Made in Spain.
