## Peels for the Professional

### Anti-acne Peel

Formulated with a total concentration of 17% active ingredients, **this peel combines complementary mechanisms of action for the treatment of acne-prone skin.**

Its efficacy is based on the keratolytic and sebum-regulating action of Salicylic Acid (2%), together with the antibacterial and anti-inflammatory activity of Azelaic Acid (5%). Lactic Acid (10%) completes the formula by providing superficial exfoliation that evens out texture and promotes cellular renewal, resulting in a **notable reduction of comedones, active breakouts, and enlarged pores.**

**INGREDIENTS:** Alcohol Denat., Aqua, Lactic Acid, Glycerin, Azelaic Acid, Polisorbate-20, Salicylic Acid, Propylene Glycol, Linoleic Acid, Linolenic Acid, Phenoxyethanol, Ethylhexylglycerin.

#### MAIN INGREDIENTS

5% Azelaic Acid + 10% Lactic Acid + 2% Salicylic Acid = 17% Total Acids

### Anti-wrinkle Peel

This high-concentration treatment (24% acids) is designed **to address the signs of photoaging through deep exfoliation and potent antioxidant action.**

Glycolic Acid (10%) ensures effective epidermal renewal, while the complex of Phytic Acid (10%) and Citric Acid (3%) provides brightness. The formula is complemented by Ferulic Acid (1%) to stabilize and protect, and Hyaluronic Acid (1.5%) to **guarantee intense hydration, achieving a visible improvement in tone, skin density, and elasticity.**

**INGREDIENTS:** Bellis Perennis (Daisy) Flower Extract, Fructose, Urea, Maltose, Trehalose, Allantoin, Sodium Hyaluronate.

#### MAIN INGREDIENTS

10% Glycolic Acid + 10% Phytic Acid + 3% Citric Acid + 1% Ferulic Acid = 24% Total Acids + 1.5% Hyaluronic Acid

### Hydrating Peel

With 15% Lactic Acid, **this peel offers gentle exfoliation ideal for maintaining the quality of the skin barrier.** Its mechanism of action promotes the desquamation of corneocytes without compromising the barrier function, stimulating natural moisturizing factors.

The incorporation of Hyaluronic Acid (1.5%) complements the action by attracting and retaining water molecules in the epidermis, resulting in **skin that is immediately softer, more flexible, and with a hydrated appearance.**

**INGREDIENTS:** Alcohol Denat., Aqua, Lactic Acid, Glycerin, Azelaic Acid, Polisorbate-20, Salicylic Acid, Propylene Glycol, Linoleic Acid, Linolenic Acid, Phenoxyethanol, Ethylhexylglycerin.

#### MAIN INGREDIENTS

15% Lactic Acid + 1.5% Hyaluronic Acid

### Peel for sensitive skin and scars

**Developed for reactive or redness-prone skin,** this balanced 15% acid peel uses highly tolerable molecules. Mandelic Acid (5%), with its larger molecular weight, provides uniform superficial exfoliation with antibacterial action. Azelaic Acid (5%) calms erythema and normalizes keratinization, and Citric Acid (5%) contributes its antioxidant capacity.

**This combination offers effective renewal while minimizing the risk of irritation, visibly improving skin texture and tone.**

**INGREDIENTS:** Aqua, Alcohol Denat., Glycerin, Azelaic Acid, Mandelic Acid, Citric Acid, Polisorbate-20, Propylene Glycol, Linoleic Acid, Linolenic Acid, Phenoxyethanol, Ethylhexylglycerin.

#### MAIN INGREDIENTS

5% Azelaic Acid + 5% Citric Acid + 5% Mandelic Acid = 15% Total Acids

**NATURAL ORIGIN:** With Natural ingredients. Vegan.

## Peels for Professionals

### Celular Renewal Peel

This treatment combines **two alpha-hydroxy acids with different molecular weights for layered cellular renewal**. Glycolic Acid (10%), with its low molecular weight, penetrates deeply for effective exfoliation, while Mandelic Acid (5%) works on the surface with its gentle and antibacterial action.

The synergy of both, with a total concentration of 15%, **promotes accelerated cellular renewal, improving smoothness, refining pores, and restoring radiance to the skin.**

**INGREDIENTES:** Aqua, Glycolic Acid, Glycerin, Mandelic Acid, Polisorbate-20, Propylene Glycol, Linoleic Acid, Linolenic Acid, Phenoxyethanol, Ethylhexylglycerin.

#### MAIN INGREDIENTS

10% + 5% = 15%  
Glycolic Acid + Mandelic Acid = Total Acid

### Anti-spot Peel

With a depigmenting action of 25.7% acids, this peel acts on hyperpigmentation on multiple fronts. Tranexamic Acid (5%) and Arbutin (2%) synergistically inhibit the transfer of melanin to keratinocytes. The alpha-hydroxy acids, Malic Acid (10%) and Glycolic Acid (5%), facilitate the removal of pigmented cells, while Kojic Acid (0.7%) blocks the action mechanism of tyrosinase. The result is an active exfoliation of spots and uniformity in skin tone.

**INGREDIENTES:** Aqua, Alcohol Denat., Malic Acid, Glycerin, Glycolic Acid, Tranexamic Acid, Phytic Acid, Polisorbate-20, Arbutin, Propylene Glycol, Linoleic Acid, Linolenic Acid, Kojic Acid, Phenoxyethanol, Ethylhexylglycerin.

#### MAIN INGREDIENTS

10% + 5% + 5% + 5% + 0.7% + 2%  
Malic Acid + Tranexamic Acid + Glycolic Acid + Phytic Acid + Kojic Acid + Arbutin

## Cocktails for Professionals

### Anti-acne Cocktail

**A treatment that addresses the issues of acne.** Zinc controls sebaceous activity, while Polylysine offers a potent antimicrobial action.

The formula is complemented by a concentrated botanical complex, where Centella Asiatica Extract and Licorice Extract provide anti-inflammatory and reparative properties, and Green Tea and Rosemary Extracts **contribute with their antioxidant and astringent activity, calming the skin and reducing redness.**

**INGREDIENTES PRINCIPALES:** Zinc, Polylysine, Extracto de Centella Asiática, Extracto de Escutalaria Asiática, Extracto de Té, Extracto de Regaliz, Extracto de Manzani-lla, Extracto de Romero.

### Sensitive skin Cocktail

**A treatment to strengthen and calm reactive skin. Its efficacy is based on reparative actives** such as Oat Extract, which **calms itching** and erythema, and Calendula Extract, **known for its anti-inflammatory and healing properties.** Centella Asiatica Exosomes provide advanced cellular action to reinforce the barrier function. **This action is enhanced by antioxidant botanical extracts that protect the skin from external aggressions, reducing its tendency to react.**

**MAIN INGREDIENTS:** Exosomas de Centella Asiática, Extracto de Caléndula, Extracto de Avena Sativa, Extracto de Centella Asiática, Extracto de Escutalaria Asiática, Extracto de Té, Extracto de Regaliz, Extracto de Manzani-lla, Extracto de Romero.

**NATURAL ORIGIN:** With Natural ingredients. Vegan.

Please find packaging options at the end of the catalogue. All product formulas can be adapted to the requirement of every customer

## Anti-aging Cocktail

An innovative treatment that combines biotechnology and botany for a **global anti-aging approach**. Its formula includes the neuropeptide Acetyl Hexapeptide-8 (Argireline®), known for **reducing the depth of expression lines**. The peptides (Oligopeptide and Tetrapeptide-7) stimulate the synthesis of collagen and other proteins in the dermis. Antioxidant extracts (Green Tea, Baical Skullcap, Rosemary) protect against environmental oxidative stress, improving **skin firmness and density**.

**MAIN INGREDIENTS:** Acetyl Hexapeptide-8 (Argireline), Palmitoyl Oligopeptide, Palmitoyl Tetrapeptide-7, Extracto de Centella Asiática, Extracto de Escutalaria Asiática, Extracto de Té, Extracto de Regaliz, Extracto de Manzanilla, Extracto de Romero.

## Anti-spot Cocktail

**A depigmenting treatment** that acts on multiple pathways of the melanogenesis process.

Niacinamide stabilizes the skin barrier and inhibits the transfer of melanosomes to keratinocytes. Arbutin and a stable Vitamin C derivative (Ascorbyl Methylsilanol Pectinate) act as tyrosinase inhibitors, lightening existing spots and preventing the formation of new ones.

Licorice and Baical Skullcap extracts reinforce the anti-inflammatory and antioxidant action, **key to preventing post-inflammatory hyperpigmentation**.

**MAIN INGREDIENTS:** Niacinamida, Ascorbyl Methylsilanol Pectinate (Vitamina C), Arbutina, Extracto de Centella Asiática, Extracto de Escutalaria Asiática, Extracto de Té, Extracto de Regaliz, Extracto de Manzanilla, Extracto de Romero

## Hydrating Cocktail

**A hydrating treatment that replicates the skin's Natural Moisturizing Factors (NMF).**

It combines the soothing power of Aloe Vera Extract with a complex of high molecular weight natural humectants such as Urea, Hyaluronic Acid, and sugars (Fructose, Trehalose, Maltose) **that attract and retain water in the epidermis**.

Allantoin repairs and maintains prolonged hydration, **restoring comfort and softness even in the most dehydrated skin**.

**MAIN INGREDIENTS:** Extracto de Aloe Vera, Humectantes naturales: Fructose, Urea, Maltose, Trehalose, Allantoin, Sodium Hyaluronate, Glucose, Extracto de Centella Asiática, Extracto de Escutalaria Asiática, Extracto de Té, Extracto de Regaliz, Extracto de Manzanilla, Extracto de Romero.

**NATURAL ORIGIN:** With Natural ingredients. Vegan.
